Seleziona «Riproduci dall'inizio» dal menù «Presentazione»

Trova la differɔnza – livello avanzato

In questo esercizio, ti verrà mostrata una schermata nera con molti simboli (frecce, cuori, triangoli etc.).

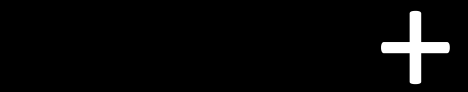

Il compito sarà quello di trovare (se c'è) un simbolo diverso (per forma, per orientamento, per dimensione) che si potrà trovare in qualsiasi punto dello schermo.

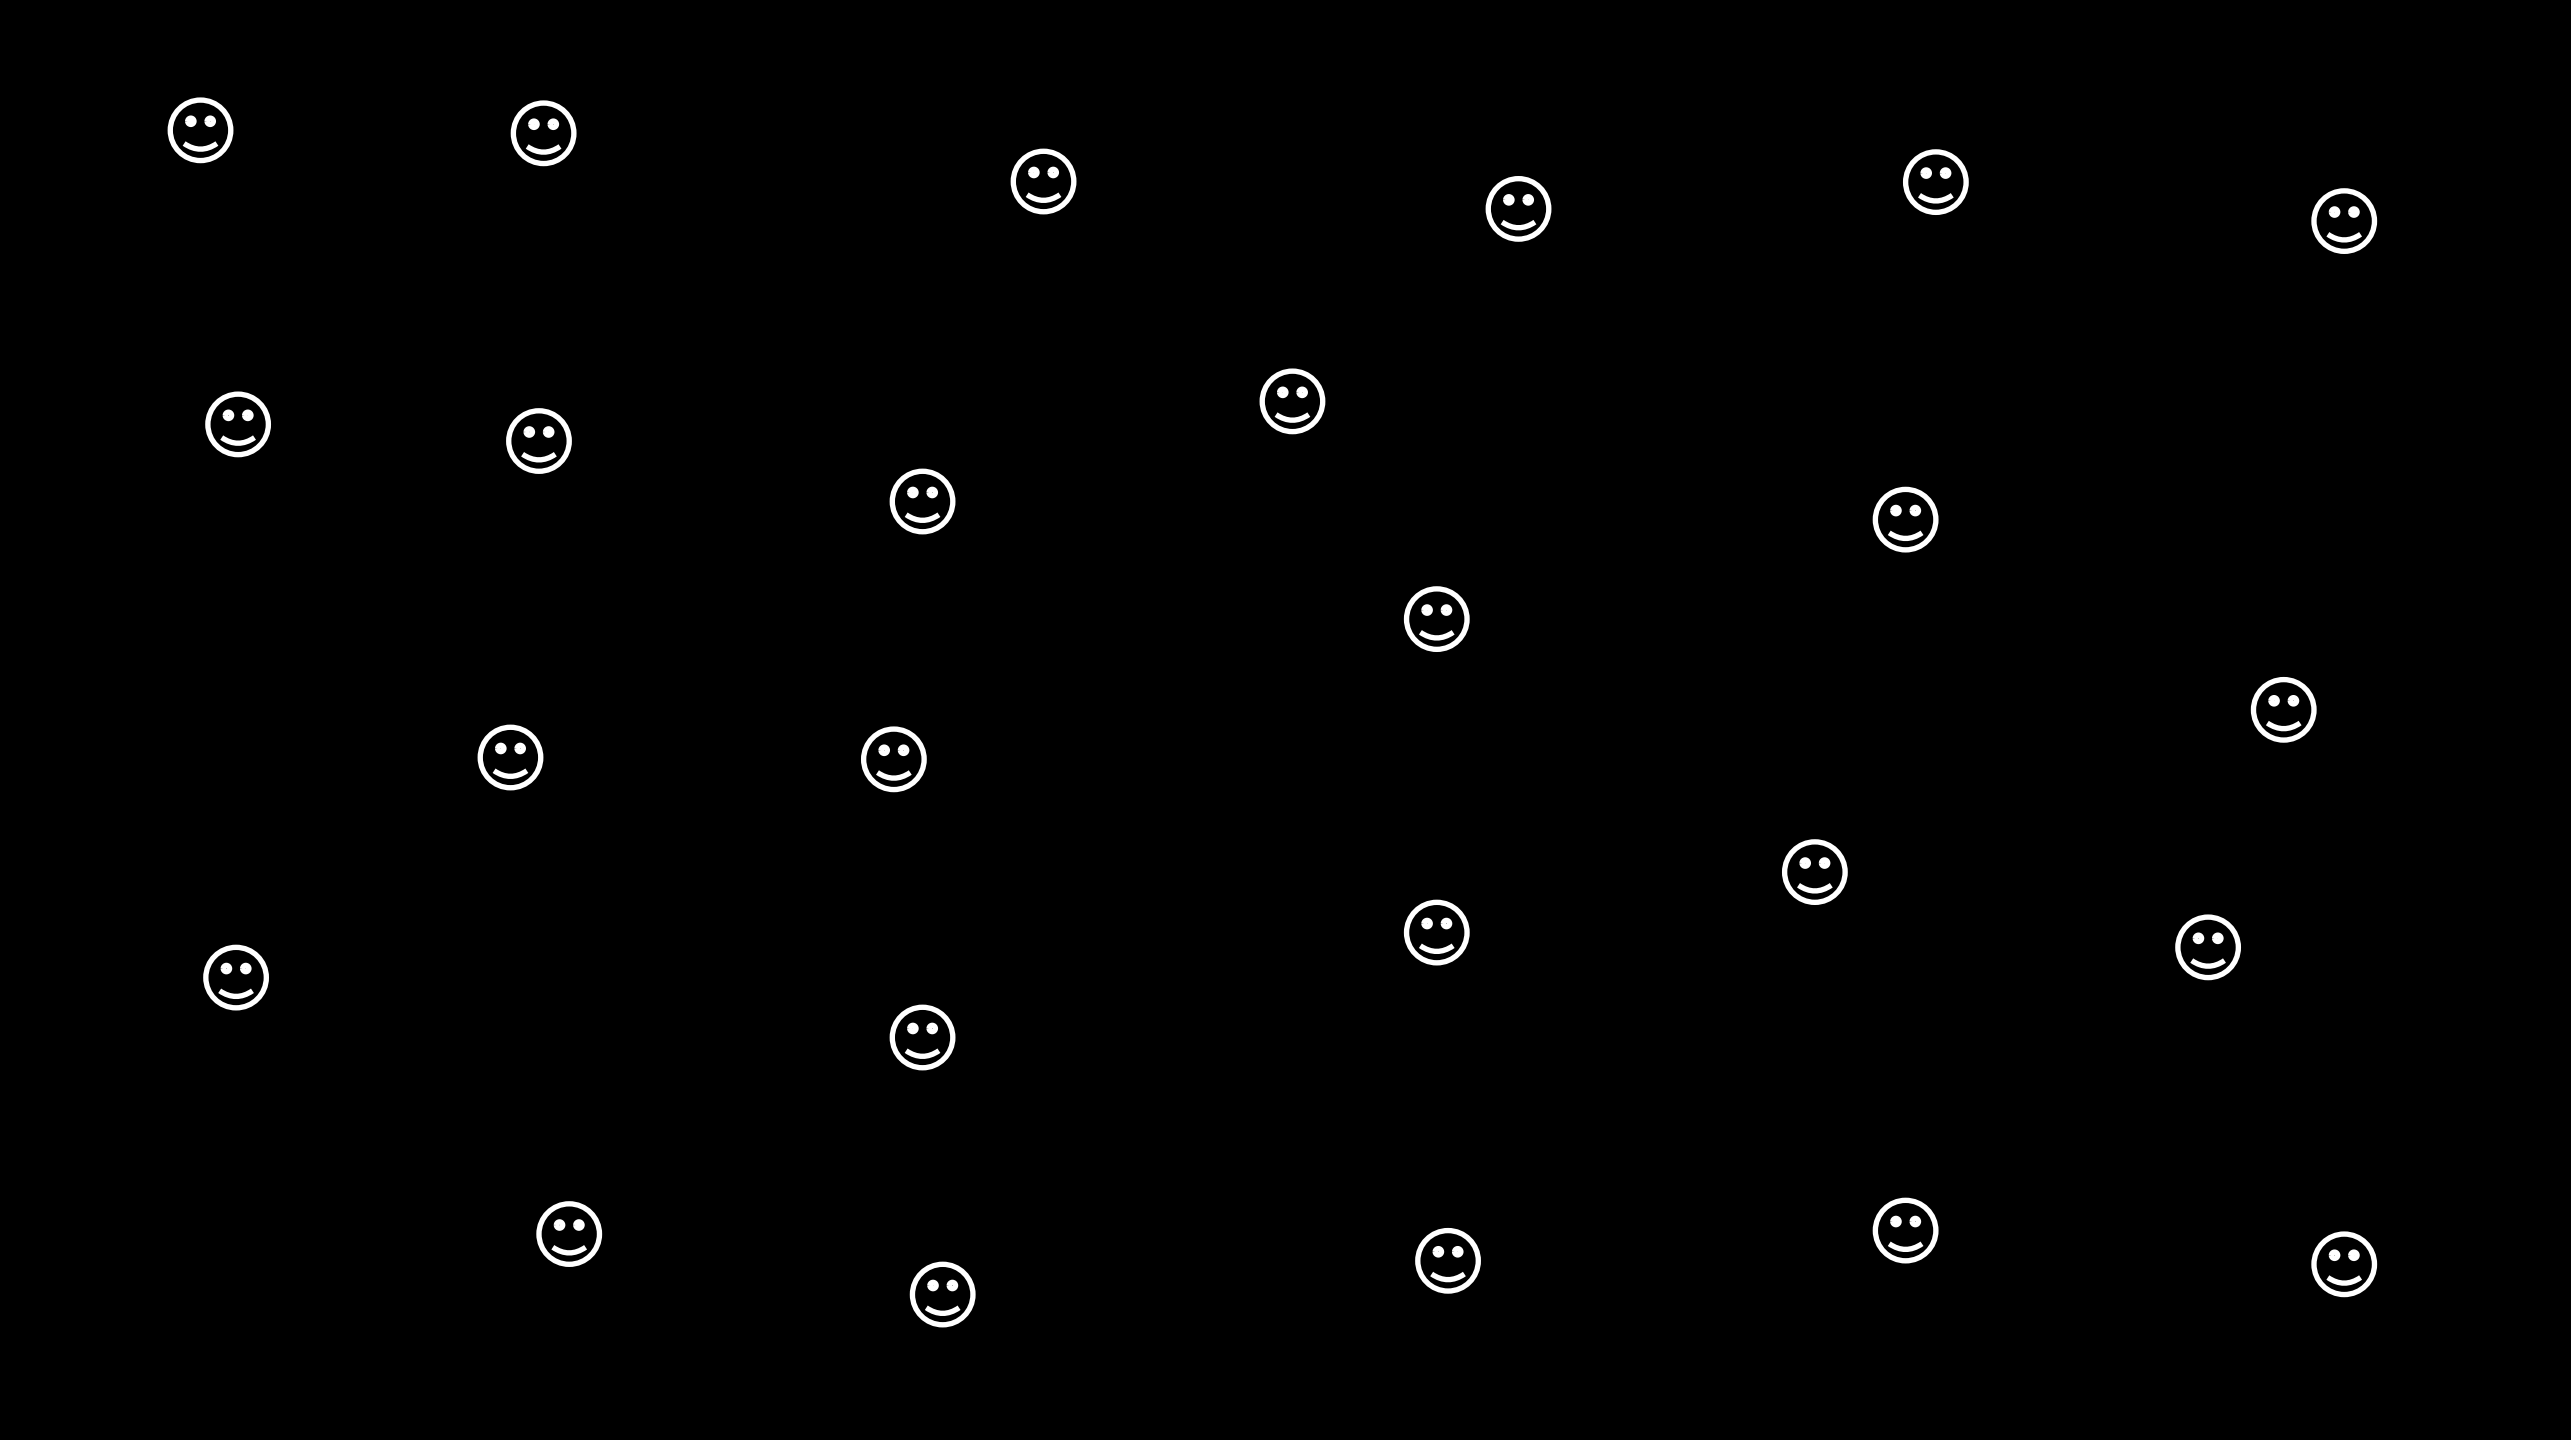

Per ogni schermata avrai **5 secondi**.

Nella schermata successiva a quella con i simboli, ci sarà scritto «SI» se c'era una differenza e «NO» se non c'era.

Stai bene attento, le immagini vanno avanti in automatico.
